

Extruded aluminium hinges CE55, CE110, CE130

The CE hinges in extruded aluminium of a new generation are now able to adapt to every situation of installation. The presence of fixing holes, which are now oval, allows the constructors maximum versatility in the regulation on the horizontal axe. The precision of the mechanism and the high quality materials guarantee high reliability. Adjustments are also now possible along the vertical axe due to the new special shaft. The hinges of the CE series are both light and robust and available in 3 different measures to satisfy all building requirements.

Extruded aluminium hinges model 55

TECHNICAL DATA

Material	EN AW 6060
Finish	Painted / Anodized
Color	Black

CE55-03000 Aluminium hinge

Weight: 118 g

CE55R-D030 Adjustable aluminium hinge right assembling

Weight: 128 g

CE55R-S030 Adjustable aluminium hinge left assembling

Weight: 128 g

Extruded aluminium hinges model 110

TECHNICAL DATA

Material	EN AW 6060
Finish	Painted / Anodized
Color	Black

CE110-0300 Aluminium hinge

Weight: 151 g

CE110R-D03 Adjustable aluminium hinge right assembling

Weight: 155 g

CE110R-S03 Adjustable aluminium hinge left assembling

Weight: 155 g

Extruded aluminium hinges model 130
